

## **District A12 Governors Project for 2025-2026**

### **Support a Family to Send a Child to D-Camp Huronda**

Every year about 40 Children age 7 to 15 from families in District A12 send their Type 1 Child to Camp Huronda near Huntsville for two weeks. The cost is \$5000 per camper which can add emotional and economic stress on the whole family.

Diabetes Awareness is one of Lions international Pillars of Service. Assisting these families is a service opportunity for us to show we Lions really do care about them.

The quality of life of 1 in 4 people in Canada is affected by Diabetes, which can be a cause of Heart Attack, Stroke, Blindness, Kidney Disease, Limb amputation and eventually death

This is why diabetes awareness is important to all of us Lions. There is no cure for Diabetes yet. But a famous Canadian Hero from our Lions District A12, 100 years ago, did co-discover Insulin saving and extending millions of lives. We need to Support Sir Fred's desire to help Diabetic Children. Their pictures are on the walls of his homestead in Alliston.

I am asking each club to send a donation to our District Treasurer John Squire. He will tally the donations by District A12 Region, and each Region will be recognized at our Convention April 11, 2026 by our District Region Chairs.

Thank you, all A12 Lions, for caring.

Your District A12 Governor  
Alliston Lion  
Jim Bartley
